## Bowersox begins term as NCEES Central Zone vice president

Maurice Bowersox, P.E., recently received his commission as NCEES Central Zone vice president at the 95th NCEES annual meeting, held August 24–27 in Indianapolis, Indiana. He was elected to the position by delegates from the Central Zone during their interim meeting in May 2016. As vice president, Bowersox will serve on the NCEES board of directors and as the zone’s administrative officer through 2018.

A resident of Olathe, Kansas, Bowersox has been a member of the Kansas State Board of Technical Professions since 2012 and was recently reappointed for a second four-year term ending in 2020. He is the board vice chair for 2016–17.

Bowersox has been a licensed professional engineer since 1978. He is a retired principal of Wilson and Company Inc., Engineers and Architects, a multidisciplinary consulting engineering firm. In 2005, he started his own consulting engineering business, Engineering Resources.

A graduate of Kansas State University, Bowersox received his bachelor of science degree and master of science degree in civil engineering. He has served in leadership positions for a number of professional and community organizations during his career. He previously served as president and national director on the board of directors for the American Council of Engineering Companies of Kansas.

## ABOUT NCEES

*The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states and territories and the District of Columbia. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.*

*NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit [ncees.org](http://ncees.org).*
