NCEES installs Turner as president

Daniel Turner, Ph.D., P.E., P.L.S., accepted the position of NCEES president at the conclusion of the organization's 95th annual meeting, held August 24–27 in Indianapolis, Indiana. Having completed a one-year term as president-elect, he will now serve as president for 2016–17.

A resident of Tuscaloosa, Alabama, Turner was a member of the Alabama State Board of Licensure for Professional Engineers and Surveyors from 2009 to 2014 and is now an emeritus member. He is a past NCEES Southern Zone vice president and assistant vice president and has served on a number of NCEES committees, including the Committee on Examinations for Professional Engineers.

Turner is an emeritus professor of civil engineering at the University of Alabama, following more than 30 years of service to the university. He is a former head of the university's civil engineering department and a former director of the University Transportation Center for Alabama.

Turner has been a licensed professional engineer in Alabama since 1985 and a professional land surveyor since 1978. He received his bachelor of science and master of science in civil engineering from the University of Alabama and his doctoral degree in civil engineering from Texas A&M University.

Turner currently serves as chair of the Technical Activities Council of the Transportation Research Board. He is a past president of the American Society of Civil Engineers and the Council of University Transportation Centers. He is a former member of the board of directors of ABET, Inc., and the board of governors for the American Association of Engineering Societies. He has also served as a Fellow of the Institute of Transportation Engineers.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states and territories and the District of Columbia. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
