Orisich begins term as NCEES Northeast Zone vice president

Thomas Orisich, P.L.S., recently received his commission as NCEES Northeast Zone vice president at the organization's annual meeting on September 15, 2021. As vice president, Orisich will serve on the NCEES board of directors and as the zone's administrative officer through 2024.

A resident of Cockeysville, Maryland, Orisich has served as a member on the Maryland State Board for Professional Land Surveyors since 2000. He served as a member of the NCEES Committee on Nominations in 2002–03 and 2011–12, as a chair and member of the Committee on Examinations for Professional Surveyors in 2005–14 and 2018–20, and as a member and consultant of the Committee on Examination Policy and Procedures in 2011–13 and 2015–18. Orisich was also a consultant on the Committee on Examination Audit in 2011–13 and is a member of the Principles and Practice of Surveying exam committee.

Orisich is a licensed professional surveyor in four public land states and four metes and bounds states. He has spent 42 years working for consulting engineering firms in Chicago and Baltimore and is a senior vice president with the multidiscipline consulting firm Whitney, Bailey, Cox, and Magnani LLC. He received the Northeast Zone Distinguished Service Award in 2010 and the NCEES Distinguished Service Award in 2020.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
