NCEES installs Robertson as president
Brian Glen Robertson II, P.E., accepted the position of NCEES president at the 100th annual meeting, held virtually on September 15, 2021. Having completed a one-year term as president-elect, he will now serve as president for 2021–22.

A resident of Wellington, Colorado, Robertson was named an emeritus member of the Colorado State Board of Licensure for Architects, Professional Engineers, and Professional Land Surveyors in 2021, after completing an eight-year tenure as a board member. He served as Western Zone vice president in 2018–20, as board liaison to the NCEES Committee on Examinations for Professional Engineers in 2020–21, and as board liaison to the Committee on Member Board Administrators in 2020–21. Robertson also served as an ex officio member to the Committee on Finances in 2020–21. He has been a licensed professional engineer in Colorado since 1999.

Robertson is a principal for BG Buildingworks, where he oversees the Fort Collins office and the electrical and lighting teams for the company. He is a graduate of Penn State University and holds a bachelor’s degree in architectural engineering. Robertson is a former classroom volunteer for the Junior Achievement of Northern Colorado. He served as the 2020 chair for the Colorado State Board of Licensure for Architects, Professional Engineers, and Professional Land Surveyors.

ABOUT NCEES
The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
