NCEES honors Maine professional engineer Mandy Holway for service

Mandy Holway, P.E., of Winterport, Maine, has been awarded the NCEES Distinguished Service Award for her dedicated service to NCEES and the engineering and surveying professions. Holway was recognized during the organization's 101st annual meeting in Carlsbad, California, on August 25, 2022.

Since 2016, Holway has contributed to the work of NCEES committees, including the Committee on Examination Audit and the Committee on Examinations for Professional Engineers. She currently serves on the leadership committee for the Northeast Zone. She has served on the Northeast Zone Site Selection Committee for numerous years and organized the 2018 Northeast Zone Interim Meeting in Portland.

Holway has served on the Maine State Board of Licensure for Professional Engineers for the past 13 years. She is currently serving the board as the complaint officer.

She joined the board as a member in 2009 and was elected vice chair in 2011 and chair in 2014. She was re-elected as chair six more times and stepped down from the position in January 2022.

For the past 27 years, Holway has been the executive vice president at Olver Associates, Inc. She serves on the University of Maine Engineering Dean's Advisory Council promoting the engineering program. She is frequently invited to speak to engineering classes and student organizations about the value of licensure.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
