Wilson begins term as NCEES Northeast Zone vice president

Samuel Wilson, P.E., recently received his commission as NCEES Northeast Zone vice president at the conclusion of the organization's annual meeting, held August 15–18 in Boston, Massachusetts. As vice president, Wilson will serve on the NCEES board of directors and as the zone's administrative officer through 2025.

A resident of Washington, D.C., Wilson has served as a member of the District of Columbia Board of Professional Engineering since 2017, serving as chair of the board in 2017–21. In addition, he served as the NCEES Northeast Zone assistant vice president in 2021–23. Wilson was a member of the NCEES Committee on Finances in 2022–23 and a member of the Committee on Uniform Procedures and Legislative Guidelines in 2020–22. He served as a member of the Public Outreach Task Force in 2018–20 and as chair in 2020–21.

Wilson is a licensed professional engineer in the District of Columbia. He has more than 40 years of experience in construction management and has provided engineering expertise on large complex construction projects throughout the United States and internationally. He is the president of the firm SGWilson Engineers.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
