Zoutewelle elected NCEES president-elect

Delegates elected Andrew Zoutewelle, P.L.S., to serve as the NCEES president-elect at the conclusion of the organization's annual meeting, held August 15–18 in Boston, Massachusetts. He will serve as president-elect for the 2023–24 term and as president the following year.

A resident of Charlotte, North Carolina, Zoutewelle serves as a member of the North Carolina Board of Examiners for Engineers and Surveyors. He served as NCEES Southern Zone vice president in 2021–23, as board liaison to the Committee on Law Enforcement and Committee on Member Board Administrators in 2022–23, and as board liaison to the Committee on Examination Audit in 2021–22. He served as a member of the NCEES Committee on Examinations for Professional Surveyors in 2014–17 and 2020–21. He also served as a member and consultant of the Surveying Exam Module Task Force in 2017–19 and as a member and chair of the Committee on Finances in 2017–20.

Zoutewelle is the president of A.G. Zoutewelle Surveyors, where he focuses his practice on boundary, development, and construction surveys of urban and suburban commercial, institutional, office, industrial, residential, and mixed-use properties, plus public infrastructure and open space. He has performed more than 25,000 surveys and consults on special boundary problems and disputes, including serving in expert witness capacities. Zoutewelle teaches seminars on surveying principles for legal and real estate professionals. He served as president of the Colonial States Boards of Surveyor Registration.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
