Bishop begins term as NCEES Western Zone vice president

Scott Bishop, P.S., recently received his commission as NCEES Western Zone vice president at the 99th annual business meeting. Delegates elected him to this position when they cast their ballots in July 2020. The election results were announced at the virtual business meeting on August 27, 2020. As vice president, Bishop will serve on the NCEES board of directors and as the zone's administrative officer through 2022.

A resident of Pleasant Grove, Utah, Bishop recently completed his second four-year term as a member of the Utah Professional Engineers and Professional Land Surveyors Board where he served the last three years as board chair. His service to NCEES includes serving as a member of the Principles and Practice of Surveying Committee and as a chair and vice chair for the Committee on Examinations for Professional Surveyors. He recently served as Western Zone assistant vice chair. Bishop was chair of the NCEES Emerging Engineers and Surveyors Group in 2015–16 and served on the Future of Surveying Task Force in 2014–16. He also served as a consultant for the Surveying Exam Module Task Force and the Committee on Examination Audit. Bishop serves as a Future City competition nationals judge.

Bishop is licensed in Arizona, Colorado, New Mexico, Nevada, and Utah and is a certified federal surveyor. He is a principal at Horrocks Engineers and manages its Right of Way Department. Bishop has taught surveying courses at Southern Utah University and Utah Valley University and is currently on the advisory board at both Utah Valley University and Salt Lake Community College.

A graduate of Idaho State University, Bishop received a bachelor's degree in geomatic technology.

Bishop is a member of the Utah Council of Land Surveyors and the National Society of Professional Surveyors.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, Puerto Rico, Northern Mariana Islands, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
