Drewyor begins term as NCEES Central Zone vice president

Michael Drewyor, P.E., P.S., recently received his commission as NCEES Central Zone vice president at the organization's 99th annual business meeting. Delegates from the Central Zone elected him to this position when they cast their ballots in July 2020. The election results were announced at the virtual business meeting on August 27, 2020. As vice president, Drewyor will serve on the NCEES board of directors and as the zone's administrative officer through 2022.

A resident of Houghton, Michigan, Drewyor serves as an emeritus member on the Michigan State Board of Professional Engineers and the Michigan State Board of Professional Surveyors. He served as a member of the NCEES Committee on Examinations for Professional Engineers in 2013–17 and as a member of the Committee on Examination Policy and Procedures in 2017–20.

Drewyor is recently retired as the Roland A. Mariucci Professor of Practice from Michigan Technological University where he taught for the last 13 years. His teaching assignments included courses in construction management, civil and environmental engineering, and surveying engineering as well as senior capstone courses. He was also an advisor for the Associated Schools of Construction Estimating team. A graduate of Michigan Technological University, Drewyor received a bachelor's degree in civil engineering and a master's degree in civil engineering. He was owner and partner at Hitch Inc. for 30 years, where he provided architectural, civil, structural, and surveying services for private, industrial, and government clients. The business was sold in 2007 to Orchard, Hiltz, and McCliment Inc. of Livonia, Michigan. Drewyor continues to provide structural engineering services through his one-person LLC.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
