Duhamel begins term as NCEES Northeast Zone vice president

Christopher Duhamel, P.E., P.S., recently received his commission as NCEES Northeast Zone vice president at the 98th NCEES annual meeting, held August 14–17 in Washington, D.C. Delegates from the Northeast Zone elected him to this position during the interim meeting in May 2019. As vice president, Duhamel will serve on the NCEES board of directors and as the zone’s administrative officer through 2021.

A resident of Westerly, Rhode Island, Duhamel has served on the Rhode Island State Board of Registration for Professional Engineers since 2008 and is a past board president and secretary. He has served as chair and as a member of the NCEES Committee on Examinations for Professional Engineers and as a consultant for the Committee on Examination Audit and the Committee on Examination Policy and Procedures. Duhamel also served as Northeast Zone assistant vice president for the 2017–19 term.

Duhamel is a principal at DiPrete Engineering, a civil engineering, surveying, and land planning firm based in Rhode Island and Massachusetts.

A graduate of Merrimack College, Duhamel received a bachelor’s degree in civil engineering.

Duhamel teaches a senior engineering class at the University of Rhode Island. He serves on several engineering boards and committees and served 14 years on the Westerly Town Council as a member and as president and was also a member of the Town Planning Board.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, Puerto Rico, the Northern Mariana Islands, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
