Lingerfelt begins term as NCEES Southern Zone vice president

Timothy Lingerfelt, P.L.S., recently received his commission as NCEES Southern Zone vice president at the 98th NCEES annual meeting, held August 14–17 in Washington, D.C. Delegates from the Southern Zone elected him to this position during the interim meeting in May 2019. As vice president, Lingerfelt will serve on the NCEES board of directors and as the zone’s administrative officer through 2021.

A resident of Kingsport, Tennessee, Lingerfelt has been a member of the Tennessee State Board of Examiners for Land Surveyors since 2009. He previously served as board vice chair and currently serves as board chair. He was a member of the NCEES Public Outreach Task Force and the Committee on Examinations for Professional Surveyors. Lingerfelt was also a volunteer for the PS Exam Development Committee and a juror for the Surveying Education Award. He served as Southern Zone assistant vice president for the 2017–19 term.

Lingerfelt is president and owner of Alley and Associates Inc., a Tennessee-based surveying firm.

A graduate of East Tennessee State University, Lingerfelt received a bachelor’s degree in surveying technology.

Lingerfelt is a member of the Tennessee Association of Professional Surveyors, the Kentucky Association of Professional Surveyors, the North Carolina Society of Surveyors, and the Surveying and Mapping Society of Georgia. He is also a National Society of Professional Surveyors Fellow.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, Puerto Rico, the Northern Mariana Islands, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
