NCEES honors Roy Entz for service

Roy Entz, P.E., P.L.S., of Muskogee, Oklahoma, has been awarded the NCEES Distinguished Examination Service Award for his dedicated service to NCEES and the engineering and surveying professions. Entz received this award at the organization's 97th annual meeting, held August 15–18, 2018, in Scottsdale, Arizona.

Entz was a member of the Oklahoma State Board of Licensure for Professional Engineers and Land Surveyors from 1991 to 1997 and 2000 to 2018. He served as board chair, vice chair, and secretary, and he was a founding member of the board's Land Surveyor Continuing Education and Professional Engineer Continuing Education committees. He was named an emeritus member of the board in May 2018 and has continued to support the board's work. He has helped prepare the Oklahoma Law and Surveying Exam since 1994 and the Oklahoma Law and Engineering Exam since 2002.

In addition to serving his board, Entz has contributed to many NCEES standing committees. He became involved with surveying exam development in 1994. From 1994 to 2005, he served 11 terms on the Committee on Examinations for Professional Surveyors as a member, consultant, and resource. From 2005 to 2014, he served six terms as a member of the Committee on Examination Policy and Procedures, including serving as chair in 2007–08.

Entz has been a licensed professional surveyor in Oklahoma since 1969. He has been an NCEES exam volunteer for almost 25 years.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, Puerto Rico, Northern Mariana Islands, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
