NCEES installs Ringle as president

Dean Ringle, P.E., P.S., accepted the position of NCEES president at the conclusion of the organization's 98th annual meeting, held August 14–17 in Washington, D.C. Having completed a one-year term as president-elect, he will now serve as president for 2019–20.

A resident of Columbus, Ohio, Ringle serves as a member of the Ohio State Board of Registration for Professional Engineers and Surveyors. He also serves as a board liaison for the NCEES Advisory Committee on Council Activities. He was previously board liaison for the Committee on Examinations for Professional Engineers and the Special Committee on Bylaws. He has also served on a number of other NCEES committees.

A licensed professional engineer since 1989 and a licensed professional surveyor since 1985, Ringle is currently the executive director of the County Engineers Association of Ohio. He previously worked at the Franklin County Engineer's Office for more than 36 years, serving as the elected Franklin County engineer for the last 17 years. Ringle also taught various surveying courses at The Ohio State University College of Engineering for the past 25 years.

Ringle, an Ohio State University graduate, was named 2011 Engineer of the Year by the County Engineers Association of Ohio and 2013 National Urban County Engineer of the Year by the National Association of County Engineers.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, Puerto Rico, the Northern Mariana Islands, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
