NCEES announces winners of 2019 NCEES Surveying Education Award

New Mexico State University receives \$25,000 grand prize

NCEES is pleased to announce the recipients of the 2019 NCEES Surveying Education Award. This annual award recognizes surveying programs that best reflect the organization's mission to advance licensure for surveyors in order to safeguard the health, safety, and welfare of the public.

NCEES awarded the New Mexico State University Geomatics/Surveying Engineering program the \$25,000 grand prize. Six additional prizes were awarded to qualifying programs to assist with each program's continued efforts to promote the importance and value of surveying licensure. The award jury considered criteria such as student outcomes and involvement, outreach and recruitment, and the promotion of licensure. The award jury met June 27, 2019, in Clemson, South Carolina, to select the winners.

NCEES Surveying Education Award juror Henry Dingle, P.S., stated, "The jury was very impressed with the constant advancement of the geomatics/surveying engineering program over the last four years. It could be a model for other programs across the country."

The jury selected seven programs to receive the following awards:

\$25,000 grand prize winner

New Mexico State University

Department of Engineering Technology and Surveying Engineering

Geomatics/Surveying Engineering program

\$15,000 winners

East Tennessee State University

Department of Engineering, Engineering Technology, and Surveying

Surveying and Mapping Science program

New Jersey Institute of Technology

School of Applied Engineering and Technology

Surveying Engineering Technology program

University of Maine

College of Engineering

Surveying Engineering Technology program

\$10,000 winners

Idaho State University

College of Technology

Surveying and Geomatics Engineering Technology program

Oregon Institute of Technology
College of Engineering, Technology, and Management
Geomatics program

University of Akron
Department of Engineering and Science Technology
Surveying and Mapping program

More information about the 2020 NCEES Surveying Education Award cycle will be posted at ncees.org/surveyingaward when available.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
