## NCEES reaches settlement with test prep company over allegations of copyright infringement

The National Council of Examiners for Engineering and Surveying (NCEES) and a test preparation company for certain NCEES exams have reached an \$800,000 settlement agreement regarding allegations of the unauthorized use of copyrighted practice questions belonging to NCEES. The agreement was finalized March 15, 2018.

In addition to the settlement payment, the test preparation company has agreed to permanently remove the NCEES-owned material from its print and online materials on an agreed-upon schedule. Per the terms of the agreement, the test preparation company does not admit any guilt regarding copyright infringement or liability to NCEES, and NCEES will not disclose the company's identity.

NCEES produces licensing exams for the professions of engineering and surveying, including the Fundamentals of Engineering exam and the Principles and Practice of Engineering exam. The nonprofit organization also publishes study materials, including practice exams, to familiarize candidates with the format and content of the exams. NCEES alleged that the test preparation company used NCEES' copyrighted practice questions in its exam preparation materials without NCEES' authorization.

"While this settlement includes a monetary payment, NCEES' focus, as always, was on protecting its intellectual property," said NCEES Chief Executive Officer Jerry Carter. "NCEES and its volunteers have literally thousands of hours invested in the development of high-quality examination items that assist licensing boards in performing their important work. We will take whatever steps are required to protect our intellectual property. We are glad to have arrived at a resolution that upholds our rights."

## ABOUT NCEES

*The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.*

*NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit [ncees.org](http://ncees.org).*
