## Qureshi begins term as NCEES Western Zone vice president

Mohammad (Dr. Q) Qureshi, Ph.D., P.E., recently received his commission as NCEES Western Zone vice president at the conclusion of the organization's annual meeting, held August 23–26 in Carlsbad, California. As vice president, Qureshi will serve on the NCEES board of directors and as the zone's administrative officer through 2025.

A resident of Irvine, California, Qureshi has served as president and vice president of the California Board for Professional Engineers, Land Surveyors, and Geologists and currently serves as a member. He served as vice chair of the NCEES Committee on Examinations for Professional Engineers in 2018–20 and as a member in 2017–18. He also served as a member of the NCEES Advisory Committee on Council Activities in 2020–22. Qureshi served as Western Zone assistant vice president in 2021–22.

Qureshi is chief strategy officer and senior project manager at LIN Consulting Inc. in Tustin, California. He earned a doctorate degree in civil engineering from the University of Tennessee, Knoxville and a master's and bachelor's degree in civil engineering from the University of California, Berkeley. He is an active member of the American Society of Civil Engineers, the Orange County Traffic Engineering Council, and the Traffic Engineer and Transportation Planner Network.

## ABOUT NCEES

*The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.*

*NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit [ncees.org](http://ncees.org).*
