## Robertson elected NCEES president-elect

Delegates elected Brian Glen Robertson II, P.E., to serve as the incoming NCEES president-elect at the organization's 99th annual business meeting. Ballots were cast in July 2020. The election results were announced at the virtual business meeting on August 27, 2020. He will serve as president-elect for the 2020–21 term and as president the following year.

A resident of Wellington, Colorado, Robertson serves as a member of the Colorado State Board of Licensure for Architects, Professional Engineers, and Professional Land Surveyors. He served as Western Zone vice president in 2018–20, as board liaison to the NCEES Committee on Examination Policy and Procedures in 2019–20, and as board liaison to the Committee on Member Board Administrators in 2019–20. Robertson also served as a member and board liaison to the Committee on Education in 2015–19 and as chair in 2017–18. He has been a licensed professional engineer in Colorado since 1999.

Robertson is a principal for BG Buildingworks, where he oversees the Fort Collins office and the electrical and lighting teams for the company. He is a graduate of Penn State University and holds a bachelor's degree in architectural engineering. Robertson is a former classroom volunteer for the Junior Achievement of Northern Colorado and is currently chair for the Colorado State Board of Licensure for Architects, Professional Engineers, and Professional Land Surveyors.

## ABOUT NCEES

*The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.*

*NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit [ncees.org](http://ncees.org).*
