Robertson begins term as NCEES Western Zone vice president

Brian Robertson, P.E., recently received his commission as NCEES Western Zone vice president at the 97th NCEES annual meeting, held August 15–18 in Scottsdale, Arizona. He was elected to the position by delegates from the Western Zone during their interim meeting in April 2018. As vice president, Robertson will serve on the NCEES board of directors and as the zone’s administrative officer through 2020.

A resident of Fort Collins, Colorado, Robertson is the board vice chair for the Colorado State Board of Licensure for Architects, Professional Engineers, and Professional Land Surveyors. His service to NCEES includes serving as a member and chair of the Committee on Education and as a board liaison for the Committee on Law Enforcement.

Robertson has been licensed in Colorado since 1999. He is a principal at BG Buildingworks in Fort Collins, Colorado.

A graduate of Penn State University, Robertson received a bachelor’s degree in architectural engineering.

Robertson is a member of the American Council of Engineering Companies and a Leadership in Energy and Environmental Design Accredited Professional with the U.S. Green Building Council.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, Puerto Rico, Northern Mariana Islands, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
