NCEES installs Tami as president

Patrick Tami, P.L.S., accepted the position of NCEES president at the conclusion of the organization's 96th annual meeting, held August 23–26 in Miami Beach, Florida. Having completed a one-year term as president-elect, he will now serve as president for 2017–18.

A resident of Roseville, California, Tami was a member of the California Board for Professional Engineers, Land Surveyors, and Geologists from 2006 to 2016 and is now an emeritus member. He previously served as NCEES Western Zone vice president for the 2014–16 and 2008–10 terms. He has also served on a number of NCEES committees, including chairing the Advisory Committee on Council Activities and the Committee on Uniform Procedures and Legislative Guidelines.

A professional land surveyor for more than 30 years, Tami is currently principal surveyor of R.E.Y. Engineers, Inc., a firm providing civil engineering and surveying services. He is a past president of the California Land Surveyors Association, a past chair of the East Bay Municipal Engineers Association and the Bay Counties Association of Civil Engineers and Land Surveyors, and a former member of the board of directors for the Western Federation of Professional Surveyors.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, Puerto Rico, Northern Mariana Islands, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
