Tyrell begins term as NCEES Northeast Zone vice president

Paul Tyrell, P.E., P.L.S., recently received his commission as NCEES Northeast Zone vice president at the 96th NCEES annual meeting, held August 23–26 in Miami Beach, Florida. He was elected to the position by delegates from the Northeast Zone during their interim meeting in April 2017. As vice president, Tyrell will serve on the NCEES board of directors and as the zone’s administrative officer through 2019.

A resident of Weymouth, Massachusetts, Tyrell has been a member of the Massachusetts Board of Registration of Professional Engineers and Professional Land Surveyors since 2011 and is the 2017 board chair. His service to NCEES includes membership on the Committee on Examinations for Professional Surveyors and the Definition of Engineering Task Force. He also chaired the Committee on Examination Policy and Procedures.

Tyrell has been licensed in Massachusetts as a professional engineer since 2004 and as a professional surveyor since 2008. He is the chief civil engineer for STV’s Boston office.

A graduate of the Wentworth Institute of Technology, Tyrell received a bachelor’s degree in civil engineering technology.

Tyrell is a member of the Boston Society of Civil Engineers Section of the American Society of Civil Engineers, the Construction Management Association of America, and the Society of American Military Engineers. He is also a member and past secretary of the Massachusetts Association of Land Surveyors and Civil Engineers.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, Puerto Rico, Northern Mariana Islands, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.
